

Geopark Code of Practice for Sustainable Tourism

By adopting the Code of Practice for Sustainable Tourism, we commit to a process of continuous improvement in sustainable tourism practice.
We observe the following principles and practices:

Working Together

We collaborate with all stakeholders to collectively develop the Geopark as a sustainable tourism destination.

A Cared-for Landscape

We actively participate in conserving our natural and cultural heritage.

A Well-understood Heritage

We offer quality information and interpretation to communicate our stories and the unique character of our Geopark to guests.

Vibrant Communities

We work to ensure that tourism makes a positive social contribution so that it benefits our community as well as our guests. We aim to make our services available to the widest possible audience.

Strengthened Livelihoods

We contribute to the local economy by maintaining and supporting local employment, by sourcing services and produce locally wherever possible, and by engaging with other businesses in promoting our Geopark as a sustainable tourism destination.

Sustainable Environmental Management

We are guided by our Environmental Policy and we work to an Environmental Action Plan, which includes actions and targets for improvement that are reviewed annually. We have effective systems for monitoring and adequately managing our waste, water, wastewater, energy, travel impact and purchases.
